

# Calling All Teachers!

Win a Classroom Makeover!

You Could **Win \$8,000** in  
eInstruction Classroom Technology!

Wish you could engage your students with more than chalk on a blackboard? You need a Classroom Makeover! Just enter eInstruction's **Content Meets Technology Sweepstakes** and your class could be a winner.

## Even the Entry Form Can Be a Group Learning Experience!

Show your class the magic that happens when content meets technology. To enter our sweepstakes, simply tell us your vision of a technology empowered classroom in 250 characters or less (approximately 25 words). eInstruction will create an interactive Google Map that your class can access online which will show the location of every classroom that enters. Once your entry is approved you can just roll a mouse over your spot on the Google map, and you will see a balloon pop up with your class entry along with your name, and the city and state of your school. Your class will enjoy following the contest and reading entries from around the US.

Read the Entry Guidelines  
at [www.eInstruction.com](http://www.eInstruction.com)  
and share them with  
other teachers.

Your entry must be received by  
May 13, 2008. Winners will be  
announced May 19, 2008.

Creating and submitting a short  
essay is not mandatory in order to  
enter the sweepstakes, but we hope  
that thinking about a technology-  
empowered classroom will inspire  
the creative energies in your class!

eInstruction™  
Simple Solutions. Real Results.

## Our Contest Guidelines – have fun!

Have fun with your students as together  
you create an entry that tells us why  
technology in the classroom is so beneficial.  
Be imaginative, be serious, be funny,  
it's up to you!

Your entry must:

- Be submitted by a teacher
- Be 250 characters or less (approximately 25 words)
- The topic must be about how technology makes the classroom a better place to learn.

# Check Out What Your Classroom Could Win:

- Interwrite Workspace with ExamView™ reader
