

LAP24

Notebook Storage Cart

24 Unit Notebook Storage Cart stores and charges up to 24 notebook computers and provides room on the top shelf for a work surface or for use with printers or wireless devices. The top shelf comes with a non-slip rubber mat and features a grommet hole at the back for cord management and access to electrical units. Includes two overload protected UL-Listed, 14-outlet electrical units which can be specified inside the front or rear of the cart. Electrical units have on/off switches. Doors, rear and side panels are perforated to allow the ventilation of equipment when charging. Grey powder paint finish.

Please note: Due to electrical limitations, each electrical unit must be plugged into **separate circuits and not just separate outlets**, or specify a timer to assist with charging notebooks.

Please Note: Bretford does not recommend placing a TV Monitor on Laptop Carts.

The Timer comes standard on the UL-listed Laptop Storage Cart. It can be purchased as an accessory for the other carts. The assembled carts timer fits inside the back of the cart and is accessible by cut outs in the lower back of the cart. Non-UL Listed carts mount the timer inside the door.

THIS NOTEBOOK STORAGE CART COMES IN TWO VERSIONS.

Bretford uses 25%-35% post-consumer recycled steel in all products that we manufacture.

UL LISTED ASSEMBLED CARTS

The UL listed version of the cart is welded together **shipping fully assembled**. It also includes a timer which allows you to plug both electrical units into the timer. The timer then alternates between powering the two electrical units. This allows you to use one electrical outlet for charging.

LAP24EULBA-GM

UL Listed Cart assembled with 5" casters, a timer and electrical units installed in the back.
DIMENSIONS OVERALL:
42 $\frac{1}{2}$ "W x 24"D x 40 $\frac{5}{16}$ "H
COMPARTMENTS:
12"W x 17"D x 3"H
MAXIMUM POWER:
30 amps / 120 v
WEIGHT: 232 lbs.

LAP24EULFR-GM

Same as above except electrical units are installed in the front.

ASSEMBLED CARTS

The assembled version of the cart is welded together and **ships fully assembled**. Select from 5" casters or 8" rubber casters. Two of the casters are fixed and the other two swivel and lock regardless of size of caster selected.

LAP24EBA-GM

Cart assembled with 5" casters and electrical units installed in the back.
DIMENSIONS OVERALL:
42 $\frac{1}{2}$ "W x 24"D x 40 $\frac{5}{16}$ "H
COMPARTMENTS:
12"W x 17"D x 3"H
MAXIMUM POWER:
30 amps / 120 v
WEIGHT: 232 lbs.

LAP24EFR-GM

Same as above except electrical units are installed in the front.

LAP24ERBBA-GM

Cart assembled with 8" rubber casters and electrical units installed in the back.
DIMENSIONS OVERALL:
42 $\frac{1}{2}$ "W x 24"D x 43 $\frac{13}{16}$ "H
COMPARTMENTS:
12"W x 17"D x 3"H
MAXIMUM POWER:
30 amps / 120 v
WEIGHT: 247 lbs.

LAP24ERBFR-GM

Same as above except electrical units are installed in the front.
