

Switchable Stereo/Mono Headphone

Model 3068AV

1. Padded headband comfortable enough for extended wear
2. Fully adjustable to fit all sizes
3. Mono/Stereo switch for language and music appreciation applications
4. Permanently attached with reinforced "strain" connection resists accidental pull out
5. Lengthy 10 foot coiled cord with 3.5mm plug & snap-on 1/4" adapter to fit all media players
6. Dual volume controls on each earcup for comfort
7. Noise-reducing earcup lowers ambient noise so volume does not need to be as high, as recommended by audiologists for hearing safety
8. Rugged ABS plastic headstrap and earcups resist breakage in high-use situations, replaceable leatherette ear cushions
 - IBM, iMac and Mac compatible
 - One year warranty for school use - unlike headphones purchased at consumer electronics stores whose warranties would be voided if used in schools

The 3068 delivers performance at an economical price for 1:1 instruction in listening centers and library uses. One advantage of the 3068 is its ability to switch between typical monaural functions such as in English Language Learning / English Language Development, language labs and speech pathology applications and the stereo mode for use in computer workstations and music appreciation classes. Califone designed this headphone with the stereo/mono user switch for optimal sound quality. Use of an internal processor to attempt this function has been shown to create quality issues which can include but are not limited to: decreased frequency response, increased distortion and diminished volume levels for students.
